

***Advanced Particle  
Engineering & Granulation  
Solutions***

**PALLOTA  
NUTRITIONS  
PVT. LTD.**

***We Granulate  
Trust.***

## TESTED, TRUSTED, AND CAREFULLY CRAFTED

We are committed to delivering uncompromised quality through carefully selected ingredients and controlled manufacturing practices. Every product reflects our promise of purity, safety, and excellence.

## About Us

**Pallota Nutritions Private Limited** is a specialized particle engineering and granulation solutions company, backed by Walpar Nutritions Limited, a trusted dietary supplement manufacturer **since 2009**.

With experience across **1,800+** formulations and **200+ brands**, Pallota Nutritions focuses exclusively on advanced granulation science, delivering high-performance, ready-to-use granules tailored for modern nutraceutical and pharmaceutical manufacturing.

## What we do

We transform raw powders into **engineered granules** that ensure:

- Superior Flowability
- High and customized bulk density (as per application requirement)
- Consistent compressibility
- Batch-to-batch uniformity

## Technology & Process Capabilities

- Fluid Bed Granulation
- Roll Compaction
- Milling & Sieving (customized particle size)
- Microencapsulation
- Specialty Drying under controlled environments

**In-house formulation development facilities** enable us to customize granules precisely as per customer and application needs

## Our Granules are Designed For

Tablets, Capsules, Sachets, Premixes, and ready-to-use dosage forms Ready to Compress. Ready to Perform.

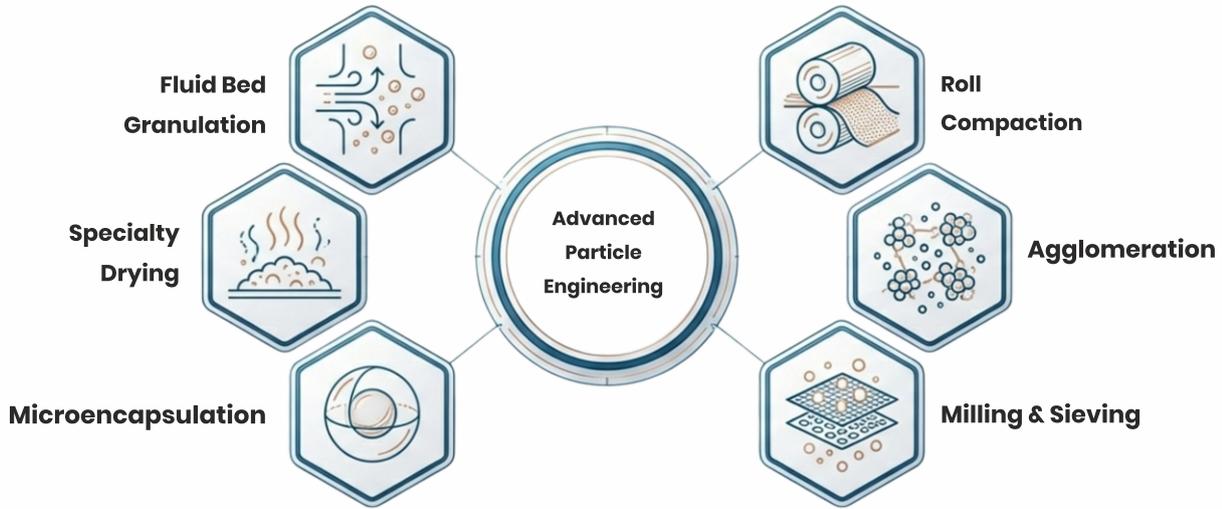

# Why Pallota Nutritions

- Customized, application-specific solutions
- B2B and bulk manufacturing expertise
- Private label and contract manufacturing support
- Scalable production capacity
- Strong technical and formulation support

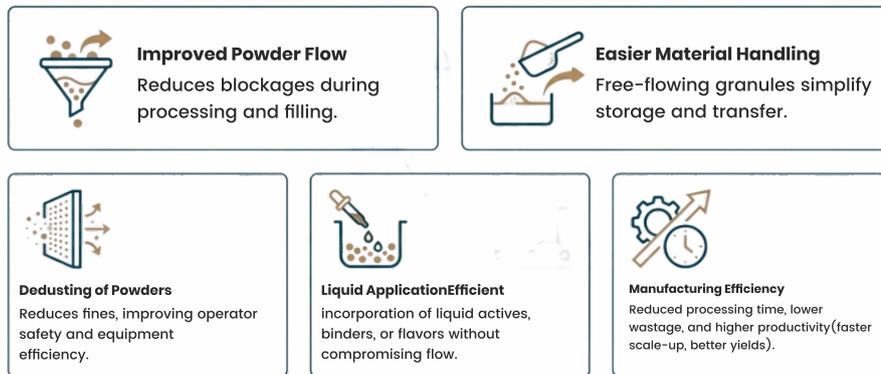

## The Technology Ecosystem

## Engineering Certainty into Manufacturing

How our granules drive operational efficiency and safety.

## Engineered for Your Specific Delivery System

**Tablets:**  
High compressibility and uniformity.

**Capsules:** Optimized density for fill weight accuracy.

**Sachets:** Free-flowing properties for fast filling.

**Direct-to-Mouth:** Taste-masked and rapid dispersion.

**1**  
**Amino Acid Granules**

L-Carnitine L-Tartrate Granules  
L-Carnitine Base Granules  
Alpha Lipoic Acid Granules  
(80% & 98.5%)  
Co-Enzyme Q10 Granules & More

**2**  
**Vitamins, Micronutrients & Fortification**

Vitamin C 95% Protective Granules  
Vitamin & Mineral Granules  
Vitamin B12 - 1% Trituration  
Customized Powder Premixes  
Powder Mixers for Rice Fortification  
Powder Mixers for Salt Fortification

**3**  
**Mineral & Electrolyte Granules**

Ferrous Sulphate Granules  
Calcium Citrate Malate Granules  
DCP Granules (Special Grade)  
Magnesium Granules  
Mineral Granules  
Starch + DCP Granules

**4**  
**Herbal & Botanical Granules**

Ashwagandha Extract Granules  
Curcumin Granules  
Green Coffee Bean Granules  
Grape Seed Granules  
Moringa Extract Granules  
Customized Herbal Granules

**5**  
**Direct Compressible & Ready to use**

Ready-to-Compress Granules  
Mannitol Granules  
Lactose Granules

**6**  
**Specialty Granules**

Coated Granules  
Effervescent Granules  
Sugar Granules / Pellets

## Benefits & Advantages

- Improved Powder Flow
- Particle Densification
- Modified Release Properties
- Consistent Uniformity
- Dedusting of Powders
- Improved Stability & Shelf Life
- Functionalization of Powders
- Low Moisture & Water Activity
- Ingredient Standardization

- Easier Material Handling
- Exact & Accurate Dosing
- Liquid Application on Powders
- Manufacturing Efficiency
- Product Differentiation
- Taste Masking
- Particle Size Management
- Competitive Advantage
- End-to-end Quality Assurance
